

WISMEN NATURE & FISHING

Wismen Nature & Fishing is located in the middle of the woodland of Halland. The farm Wismhult goes back to the 17th century and the present owner is the tenth generation on the farm. We have a long tradition of harvesting what the forest and land can give. For anglers and nature lovers we have built a spacious modern cottage 200 m from the lake. Here you stay comfortably in a genuine rural environment in walking distance from the peaceful lake Wismen. The lake has rich stocks of pike, perch and bream. Here you can fish and enjoy the nature of Halland.

FISHING WATERS

Wismen is 145 hectares and about three kilometres long. The lake is shallow with a maximum depth of four metres. It has many bays, reed belts and shallows which makes it attractive for the angler. Fishing intensity in Wismen is very low. Moreover, the expansive lake Fegen (2400 hectares) is situated within 10 kilometres distance.

FISH SPECIES

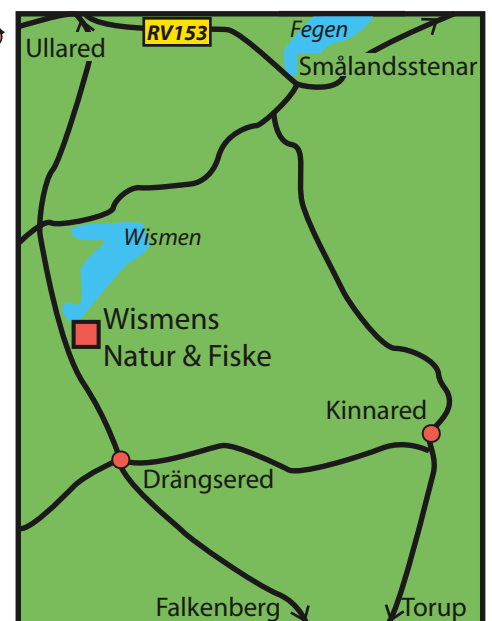

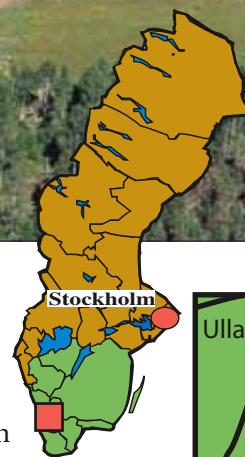

Pike and perch are the most common species of fish in Wismen. Also, there are fine stocks of roach, tench, bream, burbot and eel. Lake Fegen has, except these, also zander.

FISHING SEASON

Fishing is possible throughout the year. Pike-fishing is best in spring and autumn, perch-fishing in summer. Angling is best during the summer months.

FISHING METHODS

Spinning and trolling are the most common methods for pike and perch. Angling is suitable for bream, tench and roach. When the lake freeze over in winter we have a good jigging for perch and ice-angling for pike.

FISHING RULES

Fishing licence is demanded for fishing. The fishing host provides fishing licence, gives fishing tips and informs on actual rules. Our policy is that all fish that is not consumed during the stay shall be released.

FISHING GUIDE

A fishing guides who know our lakes well can be engaged. Our fishing guide also arranges pike-fishing with float-tube. For you who have not tried this we warmly recommend this fishing experience. To be half-way submerged into the water with close contact with fish and nature gives fishing a new dimension.
